## Profile

Hi, my name is Walid Saleh from Algeria, I'm a Self-taught Full-Stack Developer with over two years of independent training and hands-on practice. Skilled in building dynamic web applications using **HTML, CSS, JavaScript, React, Node.js (Express), and MySQL**.

Recently I saw your job offer a bit late — on October 16 — but I wanted to show my interest, so I made a quick recap in PHP and built a simple CRUD project to demonstrate my skills. One of the most important things I learned from this experience was the three methods of connecting to a databases, that it's **MySQLi (Object-Oriented and Procedural)** and **PDO.**

Eager to grow within a collaborative team, contribute to real-world systems, and learn from experienced developers at EmpowerDB.

## Education

**Self-taught Developer — Continuous Learning (Online & Practice-Based, 2023–Present)**

## Languages

**English**
English (Intermediate–Upper Intermediate, improving daily)

**Arabic**
Arabic (Native)

**French**
French (Basic)

## Cover letter

**Application for Entry-Level Web Developer – EmpowerDB**
Dear Hiring Team at EmpowerDB,
I'm writing to express my strong interest in the **Entry-Level Web** Developer position at **EmpowerDB**. I was truly inspired by your mission to build technology that supports organizations making a real difference.

Over the past two years, I've been teaching myself full-stack development, mastering **HTML**, **CSS**, **JavaScript**, **React**, **Node.js**, and **MySQL**. After discovering your job posting on October 16, I quickly began studying PHP to align with your stack. Within **three days**, I built a small **CRUD** application to demonstrate my ability to learn fast and apply new knowledge in practice.
What excites me most about **EmpowerDB** is the opportunity to grow while contributing to meaningful software. I'm confident that my dedication, technical foundation, and enthusiasm for continuous learning make me a good fit for your team.

Thank you for your time and consideration. I'd be happy to provide additional details about my project or background if needed.
Best regards,
